## **FTM-400XDR/XDE Firmware Update Information**

**(This firmware is not compatible with the FTM-400DR/DE)**

### **Caution!**

**Please be sure to confirm the model and the version of your transceiver before starting the update. Writing incorrect firmware to the transceiver may cause abnormal operation or failure. Do not install this version firmware to any FTM-400DR/DE. The update firmware is NOT compatible between FT-400XDR/XDE and FTM-400DR/DE.**

**Refer to the Firmware Update Instruction Manual in each ZIP file.**

**The latest versions are listed below with the release dates.**

- MAIN Firmware Version **220** (02/12/16)

Currently we have three different destination versions of the FTM-400DR/DE: USA, AUS, and EXP (including EU and CHN). Please open the Update Instruction Manual and review the information before starting the update firmware.

You must check the destination version radio you have and use the correct update firmware. The destination is marked on the box serial number label. If the box is not available, the country you purchased the radio in may indicate the destination. If the FCC part 15 rules statement is on the radio above the Serial/ID label, it is the USA version. Other versions will not have the FCC label.

- **DST: USA** version covers North and South America [**FTM-400XD\_ver220(USA).zip**]
- **DST: AUS** version covers Australia and New Zealand [**FTM-400XD\_ver220(AUS).zip**]
- **DST: EXP/EU/CHN** covers all other countries [**FTM-400XD\_ver220(EXP).zip**]

**FTM-400XDR/XDE Main Ver. 220 (2/12/16)**

- Improved and optimized.

If you already have Main Ver. 220 firmware version, it is not necessary to update the FTM-400XDR/XDE again

We hope this new firmware will increase your enjoyment of your FTM-400XDR/XDE. Thank you for choosing Yaesu radios. If you have any problems or questions please contact Yaesu Amateur Tech Support [amateurtech@yaesu.com](mailto:amateurtech@yaesu.com).
